REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the prior art does not teach or fairly suggest, in a shuttle blow molding method or apparatus for blow molding containers from thermoplastic material, wherein the apparatus has a first mold with a first set of mold halves that define a first mold cavity when closed, a second mold with a second set of mold halves that define a second mold cavity when closed, and an extruder for continuously extruding at least one tube of thermoplastic material downwardly along a vertical axis, and wherein the first and second mold halves engage a length of the tube for blowing, the apparatus means for moving the first mold along a first closed path to present the first mold at a first mold position to engage the tube and moving the first mold from a first position to a second position as the tube is blown, and means for moving the second mold along a second closed path to present the second mold at a first position to engage the tube and moving the second mold from a first position to a second position as the second tube is blown where the first position of the first closed path and the first position of the second closed path are the same, and the second position of the first closed path and the second position of the second closed path are the same, and the method of using such apparatus means.

Close prior art is Krall et al. (US Patent 6,471,907) which teaches a shuttle blow molding method and apparatus, but teaches that the second mold set engages the extruded material at an elevation above the first mold set, and teaches that the apparatus means moves the first mold set and second mold set in a vertical plane along a quadrilateral path. Also of interest are Mills et al. (US Patent 5,681,596); Meyer (US Patent 5,976,452); and Frohn et al. (US Patent 3,998,576).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
